EPS LEARNING

Open a lifetime of literacy & learning.

TEXAS FOUNDATIONAL LITERACY

# More Decodable Practice. Right When Students Need It.

Use EPS Learning decodable readers alongside Bluebonnet Learning to extend skill-aligned connected-text practice for beginning and striving readers, with the HB 2 Early Literacy Intervention Allotment providing a potential funding path for supplemental decodable practice.

Decodables for Grades K–8 | MTSS 1 2 3 | Print

**MATCH THE TAUGHT SKILL • PRACTICE IN CONTEXT • BUILD FLUENCY**

Bluebonnet Learning

## A Practical Companion to Bluebonnet Learning

Bluebonnet Learning K–3 Foundational Skills uses explicit, systematic instruction and gives students intentional practice in isolation and through decodable text.

### A Simple Use Case

- ✓ Teach the Bluebonnet Learning foundational skill as designed.
- ✓ Select an EPS reader featuring the same or a previously taught phonics pattern.
- ✓ Use the reader for added small-group, intervention, partner, or independent practice.
- ✓ Prompt rereading and brief discussion to extend fluency and comprehension.

## Why EPS decodables?

Students practice decoding words in connected text using explicitly taught skills.

Multiple series provide options across early literacy, intervention, and older striving readers.

Inside-cover skill information helps teachers quickly identify the phonics focus.

The collection includes fiction and nonfiction choices that support engagement, fluency, and comprehension.

# Build a Skill-Matched Practice Library

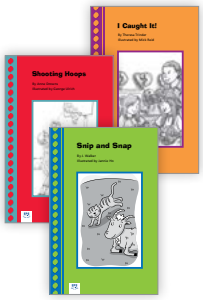
Choose the EPS series that best fits the learner, then match the reader to the phonics pattern already introduced in Bluebonnet Learning.

## Readfetti Decodable Readers

42 skill-sequenced readers paired with Read Aloud Cards. Supports decoding and language comprehension practice.

Grades K–2

## SPIRE Illustrated Decodable Readers



120 fiction and nonfiction readers. Inside covers identify focus concepts, prior concepts, and sight words.

Grades K–8

## Primary Phonics

Color-coded storybook sets with focus-concept and sight-word lists. Companion workbooks support comprehension.

Grades K–2

### Also Available:

**The Alphabet Series** and **Touchphonics** decodable readers for additional connected-text practice.

# Texas Implementation Conversation

Planning questions for curriculum, literacy, and intervention leaders

1. Which Bluebonnet foundational-skill lessons need more student practice in connected text?
2. Where do teachers need more reader choice for reteaching, small groups, or intervention?
3. Which phonics patterns are most challenging for students across campuses or grade levels?
4. Do older striving readers need age-respectful decodable fiction and nonfiction?
5. How will teams organize readers so selection follows the taught skill rather than reading level alone?

Bluebonnet Learning remains the core instructional material. EPS Learning decodables provide additional, flexible opportunities for students to apply taught phonics skills in connected text, build fluency, and strengthen comprehension.
