SPIRE Up: A New Chapter in Intensive Literacy Intervention

SPIRE Up is a flexible, blended Structured Literacy solution for intensive reading intervention. Grounded in the science of reading and built on the same trusted research base as SPIRE—an ESSA Level 1-validated program—SPIRE Up provides an efficient pathway for building and strengthening foundational literacy skills.

Focus Areas
Decoding and Foundational Literacy

Blended Model
Teacher-Led Instruction & Guided Practice (Print) + Online Practice & Assessment (Digital)

Designed for students with significant reading needs, SPIRE Up is ideal for learners receiving Tier 3 intervention, students who qualify for special education services, and those who demonstrate characteristics of dyslexia.

Through explicit, systematic, teacher-led instruction rooted in Orton Gillingham methods, SPIRE Up gives striving readers the structure, practice, and support they need to master decoding, cross the decoding threshold, and move confidently into independent reading.

SPIRE Up equips educators and leaders with clear, actionable data. Intuitive reports give teachers real-time insight into student progress and instructional next steps, while school and district leaders gain visibility into fidelity of implementation, growth, and program impact.

Why SPIRE Up?

SPIRE Up blends instruction, practice, and assessment into a flexible, efficient system that fits modern classrooms, schedules, and staffing:

- ✓ **Teacher-led, print-based lessons** introduce and reinforce skills through explicit, multisensory instruction and intentional guided practice

- ✓ **Print and digital teacher-supported practice** strengthen mastery and support automaticity while automatically capturing critical data for analysis

- ✓ **Embedded, ongoing assessment** without testing streamlines placement, progress monitoring, and instructional planning— without manual data entry

Recognized for Excellence

SPIRE Up is a **2025 CODiE Award finalist for Best Science of Reading Solution**, honoring its innovative, cohesive approach to accelerating growth for striving readers.

"**Every student has a spark**—SPIRE Up is the way for our Exceptional Student Education students to shine. SPIRE Up has unlocked our students' abilities through more complex activities by using a blended program style that provides teacher-led explicit instruction and technological support. SPIRE Up for Martin County School District is **where no student is left behind—and no teacher stands alone.**"

– Karis Sullivan, Instructional Coach, Martin County School District, Florida

Proven Science of Reading Approach to Meet Intensive Literacy Needs

Helps striving readers—including students with dyslexia—master foundational skills.

- Grounded in Structured Literacy and Orton-Gillingham methods for explicit, systematic, multisensory instruction

- Teacher-led lessons with soft scripting and integrated physical and digital manipulatives for clarity, consistency, and reinforcement

- Age-appropriate texts and materials that respect older learners

Teacher-Led Instruction Blended with Purposeful Technology

Keeps teachers at the center while technology enhances instruction, practice, and efficiency.
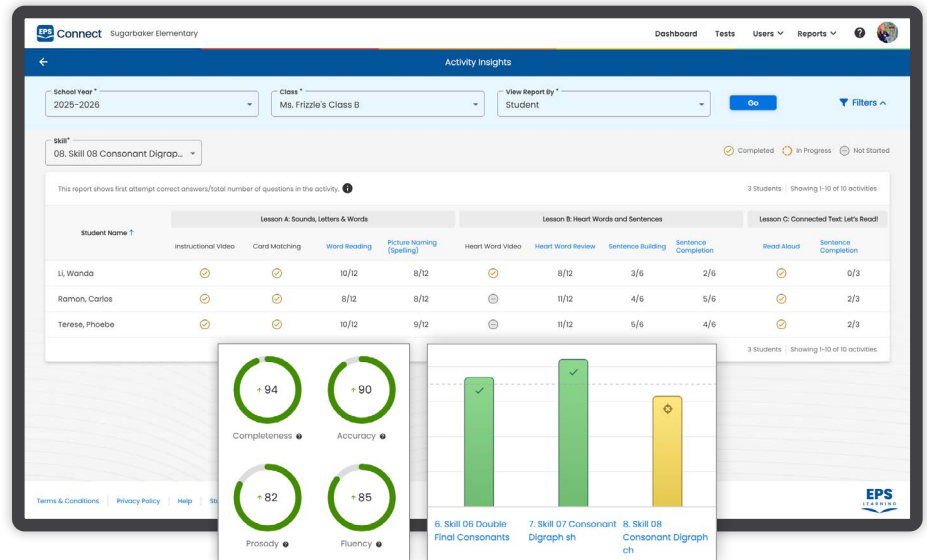

- Voice recognition with AI captures authentic reading practice for real-time decoding and fluency insights.

- Automatic scoring of assessment and practice reduces teacher workload.

- Real-time dashboards show mastery, growth, and instructional next steps for teachers and administrators.

Time-Saving Data and Insights at Every Level

Delivers actionable data to the right people, without extra tools or testing.

- Teacher reports support daily planning and progress monitoring.
- School-level reports for tracking usage, fidelity, and student progress across classrooms.
- District-level reports identify trends, measure growth, and clarify impact.

Enables Ease of Implementation and Long-Term Sustainability

Supports schools in getting started and sustaining results over time.

- Flexible scheduling with instructional blocks that stack into 15-45-minute sessions, 3-5 days per week in pull-out, push-in, 1:1, and small-group settings.
- Professional learning options—async, live virtual, or in-person—respect educators' time.
- Ongoing services and partnership, grounded in implementation science, follow a Review → Reflect → Refine (Re3) model to build capacity and sustain impact.

Skill (64 Total)

| Adaptive Placement Test | → | LESSON A **Sounds, Letters & Words** | LESSON B **Heart Words & Sentences** | LESSON C **Passages** | → | Next Skill |

- 🕐 15 MINUTES — Teacher-Led Instruction
- 🕐 15 MINUTES — Guided Practice
- 🕐 15 MINUTES — Digital Instruction, Practice & Progress Monitoring

Flexible implementation enables delivery 3-5 days/week.
